

GOURMANDISE

A Swansey & Sherry Company

Our Mission

— — —

Create Restaurant & Item Review System

Site Can Dynamically Expand

User-Generated Content

Lightweight admin tools

Users Can

- Leave Reviews
- Search by type & rating
- Categorize
- Upload Pictures
- Manage owned restaurant
- Be policed by admins

Tech Components

— — —

- MySQL stored all permanent data
- PHP, builds out our whole site
- PHP forms were insufficient, substituted AJAX
- Bootstrap & CSS
- Dabbled in jQuery

Biggest Hurdles

— — —

Dave:

- The Pictures!
- The Search Bar

Joe:

- AJAX conversions
- Live Chat
- Planning functional full stack

What Would Do With More Time?

1. Get image uploads working (again)
2. More Testing
3. AJAX Page loading
4. More Owner tools
5. Proper Admin Tools
6. ASP.net ;)
